Gatina Factory was established in the 1980s and is one of two factories processing coffee cherry from neighboring farms as part of the *Mugaga Farmers Cooperative Society*. This cooperative has 527 active farming members.

GATINA FACTORY, KENYA.

Gatina Factory is assisted by the leading agribusiness organisation in Kenya, *Coffee Management Services* who undertake ongoing farmer training including their Good Agricultural Practice seminars, Sustainable Farming handbooks and demonstration plots at the factory that reinforce best practices. The goal is to grow professional coffee farming in Kenya with better farm management, higher quality coffee and greater efficiency resulting in higher prices, international recognition and a more sustainable industry.
