

ORGANIC WASTE COLLECTION SERVICE

COMPOSTING IS THE BEST WAY TO DISPOSE OF OUR PRODUCTS, WHICH IS WHY WE ARE PLEASED TO OFFER OUR ORGANIC WASTE COLLECTION SERVICE TO HELP YOUR BUSINESS EFFECTIVELY DISPOSE OF COFFEE GRINDS, FOOD WASTE & COMPOSTABLE PACKAGING.

THERE ARE FOUR STEPS INVOLVED IN OUR ORGANIC WASTE COLLECTION SERVICE

1. SUPPLY

— WE CAN SUPPLY YOUR BUSINESS WITH BOTH INTERNAL AND EXTERNAL BINS (AND COMPOSTABLE LINERS) THAT YOU CAN USE TO CAPTURE FOOD WASTE, COFFEE GRINDS, COMPOSTABLE COFFEE BAGS AND PLANETWARE PRODUCTS.

2. COLLECTION

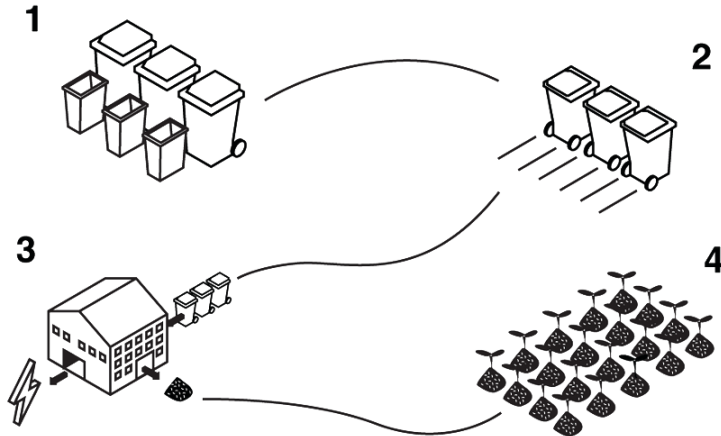

— WEEKLY COLLECTION, SORTING AND TRANSPORT TO ONE OF OUR PARTNERED WASTE-TO-ENERGY FACILITIES IS ORGANISED.

3. PROCESSING

— WE USE TWO FACILITIES TO PROCESS THE WASTE. ONE CONVERTS IT STRAIGHT INTO NUTRIENT RICH FERTILISER, THE OTHER IS ABLE TO PROCESS THE WASTE INTO GENERATING BIOGAS THAT CAN THEN BE USED TO CREATE ENERGY IN THE FORM OF ELECTRICITY THAT IS USED TO POWER ITS FACILITY AND NEIGHBOURING BUSINESSES, WITH ANY EXCESS POWER RETURNED TO THE GRID.

4. COMPOSTING

— THE RESULTANT DIGESTED WASTE FROM BOTH FACILITIES CAN THEN BE USED AS COMPOST FOR PARKS AND SMALL SCALE FARMS, COMPLETING THE LIFE CYCLE OF OUR PRODUCTS AND RETURNING THEM TO THE GROUND TO NOURISH THE GROWTH OF OTHER ORGANICS.

THE WASTE COLLECTED IS NOT JUST
DIVERTED FROM LANDFILL, BUT USED
AS A RESOURCE AND MAKES THE
CIRCULAR ECONOMY A REALITY.
